YACHTING EDITION

CARLEX

YACHTING EDITION

The Range Rover Yachting is a one of a kind SUV in the C-segment: it combines tough and sporty lines with a fresh marine style.

The lower part of the car's body has been painted silver and brushed to perfectly correspond with the black-painted upper part. The 22-inch silver-painted and brushed rims make the vehicle sassy and refined. The Range Rover Yachting features bespoke emblems that mark the marine style of this unique special edition.

INTERIOR

The Yachting edition is a perfect combination of luxury handcraft and a sporty style. Selected parts of the car's interior, including reshaped seats, have been trimmed with off-white leather and decorated with laser-engraved and embossed motifs. The headliner has been padded with light-hued Alcantara® with a flower of the winds embroidery, marking the marine style of this special edition.

The Range Rover Yachting steering wheel has been trimmed with top quality leather and features wooden decors. The floor has been panelled with wood which perfectly corresponds with the light-coloured upholstery.
