## VW T6 LIMITED EDITION

  
JERAL TOWELL

## BEST STYLE OR DIE

Volkswagen T6 Jeral Tidwell Limited Edition, is not another nice transporter. It's a car that will take you anywhere, even to the darkest corners of your mind.

By choosing the limited edition of VW T6, inspired by the art of Jeral Tidwell, you break free from the plain boredom of standard solutions, and in exchange you receive what matters most: a car with a soul.

## JERAL TIDWELL

Jeral Tidwell's art is full of dark motifs, verging on the grotesque.

The artist often tackles the motif of death in a peculiar, funny and often perverse way. He gained particular recognition for his colourful, unique series of skulls. Currently, his works have reached multiple fields of artistic experience: drawing, graphics and even tattoo art.

His works were exhibited in art galleries in Los Angeles and New York. He created illustrations for many books and magazines, from automotive to science-fiction.

## EXTERIOR

Always go for unconventional solutions, which will show others who you are and what you're into.

You like being expressive? So do we, that's why we've come up with a generous exterior design including: a customised body kit, quad sports exhaust endings and a graphic design that will give you the creeps.

## INTERIOR

The interior is dark, but incredibly comfortable – this is what you expect when getting in a car.

We have covered the interior with pure leather and credit for the grotesque motifs on the seats should go to Jeral Tidwell's imagination.

## STEERING WHEEL

Additionally, we have modified the shape of the steering wheel and covered it with leather, to provide you with maximum comfort for all your journeys.
