

CARLEX DESIGN[®]

— LAND ROVER DEFENDER —

YACHTING EDITION

YACHTING EDITION

Is it possible for a vehicle to be both a perfect companion for special tasks, and a unique and luxury car? Of course, it is. Just look at our Yachting Edition, made for those who prioritise luxury, love sunny, marine style, and need off-road performance and reliability. This is exactly what the new Land Rover Defender is like.

— **EXTERIOR** —

The Defender simple body was a perfect material for the stylish Yachting conversion: the lower car's body part, the roof, and bespoke, tapering rims have been painted silver and hand brushed by Carlex Design experts.

CARLEX DESIGN

YACHTING EDITION

FLOWER-OF-THE-WINDS

The car features the flower-of-the-winds motif, characteristic for the Carlex Design Yachting Edition, engraved on the spare wheel cover, and has been decorated with custom emblems, wrap, and lustrous stripes on the roof.

— **INTERIOR** —

INTERIOR

Two versions of the car's new interior are available: cream upholstery with wooden decors, and a caramel-hued version with light inserts. Both feature brushed silver elements, which perfectly complement the car's body. The reshaped seats have given the car interior a sporty touch.

WOOD

Apart from the silver hand-brushed finishing, wooden elements are characteristic of the Carlex Design Yachting collection. The Land Rover Yachting features a steering wheel wooden cover and a new wooden floor.
